

# Solving the MSP Compliance Puzzle with Franco Signor

Franco Signor delivers innovative Medicare Secondary Payer (MSP) compliance solutions based on unparalleled expertise and decades of industry experience. We are the fastest growing MSP compliance firm in the U.S., leading the industry in the development of new products and services.

Our proprietary processes deliver best in class service to our clients with measurably superior results. Franco Signor's technology-driven products and services, like our Compliance 360° program, have revolutionized MSP compliance—and we're not slowing down.

## The MSP Compliance Puzzle

## Why Choose Franco Signor?

- **Experience.**  
Founded by recognized MSP visionaries.
- **Technology.**  
Our solutions put your Medicare data to work.
- **Partnership.**  
We understand your unique compliance needs.
- **Engagement.**  
Unparalleled legislative and regulatory involvement.
- **Comprehensive.**  
True MSP compliance goes beyond Medicare Set Asides.

# Compliance 360°: Completes the MSP Puzzle

CMS has all the pieces for every Medicare claim. Franco Signor thinks you should, too.

Our **Compliance 360° Program** has simplified every step of the Medicare Secondary Payer (MSP) compliance process for the client and front-line adjuster. We've combined Medicare Reporting, Conditional Payments and Medicare Set Asides (MSAs) into one comprehensive compliance solution. Our program provides our clients with the completed compliance puzzle.

Conditional Payments, MSAs, and Medicare Reporting programs all developed independently and with little coordination between them, resulting in silos of information. CMS compiles information from each silo, assembling these pieces for every claim.

The Compliance 360° Program duplicates CMS integration with Franco Signor's proprietary technology platform. We've cut out the manual processes and replaced them with triggers and alerts that can be easily updated based on changing CMS policy. That means our clients can settle and close claims efficiently and with confidence.

## Compliance 360°: The Complete Compliance Picture

### Synergistic

Medicare Reporting, Conditional Payments, and MSAs linked

### Integrated

Flexible technology platform that connects with any existing system

### Insightful

Business intelligence delivers effective compliance triggers and alerts

### Easy to Use

Customizable dashboards provide critical insight for decision makers

### Proactive

Validation rules provided to avoid MSP exposures such as penalties
