

Get Fact-Based Clarity for Your COVID-19 Claims

As the insurance industry adapts to the unprecedented challenges presented by the COVID-19 pandemic, FS Claim Solutions has developed two critical new services to help. These services embody our long-standing commitment to delivering claim resolution tools that are reliable, efficient and cost-effective. Introducing **COVID Reserve Setting Tool (CREST)** and **COVID Medical Cost Projection Service (CMCPS)** from FS Claim Solutions.

CREST: COVID RESERVE SETTING TOOL

CREST provides a high-level overview of the expected costs related to the diagnosis and treatment of COVID-19. The costs are determined through the codes known to be related to diagnosis cross-referenced with the patient's local market prices and our proprietary clinical references and resources.

CREST provides insight into

- Testing and assessment costs to confirm initial diagnosis
- Emergent treatment costs, including hospitalization, following diagnosis
- Follow-up care costs such as telemedicine, residual viral effect testing, and antibody testing

CMCPS: COVID MEDICAL COST PROJECTION SERVICE

COVID-19 patients undergo varying degrees of severity which a range of costs associated with differing levels of care. Though the disease course is limited (4-8 weeks on average), the cost can be substantial, especially in patients with co-morbid conditions. CMCPS provides a detailed projection utilizing an evidence-based methodology based on actual billed amounts or applicable fee schedules. Count on our CMCPS to deliver certainty and accuracy when it matters so much.

CMCPS provides costs related to

- Emergent and inpatient hospitalization
- Follow-up care such as telemedicine, residual viral effect testing, and antibody testing
- Ongoing monitoring for viral complications, especially in patients with pre-existing conditions

Contact your **FS Claim Solutions representative** for more information.
