

Track Down Critical Data with FS Claim Solutions

The Medicare, Medicaid, and SCHIP Extension Act of 2007 (MMSEA) obligates general liability insurance carriers to report certain bodily injury statements to Medicare. They're additionally required to protect themselves and the settlements by identifying and reimbursing conditional payments made on behalf of the claimant.

Unfortunately, claimants and plaintiff attorneys will often withhold Social Security Numbers (SSNs) or birth dates, which are necessary for identifying those specific subsets of claims. At FS Claim Solutions we have a solution: our **Critical Information Identification Service**.

The process is simple: clients provide us with basic information, and we deliver a valid SSN or birth date within minutes. And the best part: we only charge for successfully delivered information. We can accept both individual referrals and batched referrals of up to 1,000 claims at a time.

Find a SSN

We only need

- A claimant's name
- Date of birth
- Last known address

Find a Birth Date

We only need

- A claimant's name
- Social Security Number
- Last known address
